Dear Richard

I really wanted to put on record my gratitude to both yourself and the many NANP members who responded with quite astonishing speed to my request for example of problems that the introduction of the supplementary lists following a meeting I had with Nigel Crisp, Chief Executive of the NHS, about then workforce crisis. The information that was provided is extremely helpful, and will be fed back to Nigel Crisp.

I am genuinely delighted that our two organisations can work so closely together in such a positive and valuable way.

With very best wishes
Yours sincerely
